

TRENT BOSCH CARBIDE TIP CONVERSION

INSTRUCTIONS

TIP REPLACEMENT:

THE TIPS ARE FRAGILE. EXTRA CARE SHOULD BE TAKEN WHEN USING. IF THE TOOL IS DROPPED, YOU HIT A NAIL OR ARE CUTTING TOO AGGRESSIVELY, THE CUTTER AND OR HOLDER FOR THE CUTTER MAY BREAK. PLEASE USE CAUTION WHEN USING THE CARBIDE CONVERSION KIT.

TO REPLACE YOUR TIPS WHEN THEY ARE WORN OUT, SIMPLY TAKE A PROPANE PLUMBERS TORCH AND HEAT THE END OF YOUR TOOL UP. THE SUPER GLUE, HOLDING THE TIP IN, WILL HEAT UP AND EXPAND AND ACTUALLY PUSH THE OLD TIP OUT. ONCE THE OLD TIP IS OUT LET THE TOOL COOL, AND CLEAN OUT ANY EXCESS GLUE THAT IS LEFT IN THE TOOL.

TO GLUE THE NEW CARBIDE TIP IN, USE MEDIUM VISCOSITY SUPER GLUE. FILL THE HOLE IN THE TOOL WITH THE GLUE. GENTLY PRESS THE NEW TIP IN ABOUT 3/8". EXCESS GLUE WILL SQUEEZE OUT. WHEN ALIGNING THE CARBIDE TIP IT WORKS BEST IF YOU GLUE IT IN AT A 30 DEGREE ANGLE (IF YOU ARE STANDING BEHIND THE TOOL LOOKING DOWN ON IT THE TIP SHOULD BE TILTING 30 DEGREES TO THE LEFT – TOWARDS THE CUTTING SURFACE- SO AS TO MAKE THE TOOL LESS AGGRESSIVE). MAKE SURE THE CUTTER TIP IS ALIGNED PROPERLY. WIPE ANY EXCESS GLUE OFF AND SET ASIDE FOR THE GLUE TO CURE FOR ABOUT TEN MINUTES. **DO NOT** USE ANY ACCELERATOR AS IT WILL NOT ALLOW THE GLUE ON THE INSIDE TO DRY COMPLETELY. (EXTRA TIPS CAN BE PURCHASED THROUGH TRENT BOSCH STUDIOS OR THE DISTRIBUTOR WHO SOLD YOU YOUR TOOL.)

THANKS FOR PURCHASING THESE TOOLS! FOR FURTHER INSTRUCTIONS ON USE I HAVE INSTRUCTIONAL VIDEOS AVAILABLE. CHECK OUT WWW.TRENTBOSCHTOOLS.COM FOR OTHER INNOVATIVE TOOLS. ENJOY YOUR NEW TOOL!

HAPPY TURNING,
TRENT BOSCH
